

BonaRes Centre International Advisory Board

The BonaRes Centre's **International Advisory Board** supports scientific excellence and user orientation. The Board members advise on international integration and support international compatibility of data, modelling, decision-support concepts and outreach activities. It also involves national bioeconomy stakeholders with backgrounds in farming, technology, consultancy, administration and policy making. They advise on the specific needs of users with regard to soil research and BonaRes products, in particular with regard to information, standards and functionalities of data, models and tools for decision support.

Name	Affiliation	State	Expertise
Keith Bristow	Commonwealth Scientific and Industrial Research Organisation (CSIRO)	AUS	soil heat, water & solute transport in unsaturated zone; polymers' use in irrigated agriculture; irrigated systems' sustainability
Lijbert Brussaard	Wageningen University	NL	soil biology & biological soil quality; Production ecology & resource conservation
Katarina Hedlund	Lund University	SE	soil ecology, ecosystem services, biodiversity
Kate Scow	University of California Davis, Scow Soil Microbial Ecology Lab	USA	soil science, soil microbial ecology; agricultural sustainability; Biogeochemistry
Thomas Scholten	University of Tübingen	DE	former president of the German Soil Science Society (DBG)
Luca Montanarella	European Commission DG JRC, Institute for Environment and Sustainability Ispra	EU	European Soil Bureau, science-policy interface, global soil partnership
Johannes Müller	Bund-Länder Arbeitsgemeinschaft Bodenschutz (LABO)	DE	user perspective of policy making and regulation for soil conservation
Frank Glante	Umweltbundesamt Kommission Bodenschutz	DE	user perspective of regulation and policy for soil conservation
Henrik Wendorff	The German Farmers' Association - Deutscher Bauernverband (DBV)	DE	represents interests of German farmers covering legal, fiscal, social, environmental and educational issues
Reinhard Grandke	German Agricultural Society (DLG)	DE	science-practice interface on innovation and progress in agriculture
Foteini Zampati	Association for Technology and Structures in Agriculture (KTBL)	DE	agro-industry and supporting services, risk-benefit assessment for technologies
